

## Case Study: EBC\*L Champions League

Harald Schwinn from HTL Wien 3 in Vienna won the EBC\*L Champions League of 2012.

Only the 50 "best of the best" of more than 4,000 year-graduates of the European Business Competence \* Licence, EBC\*L were invited to Vienna to participate in a very exciting economic competition. The task was highly current: In a challenging 2-hour test, the participants had a company that is due to global competition in existential needs, analyze and propose measures, as this could come back from the crisis.

The awards were presented at a formal ceremony by Dr. Elisabeth Freismuth, section chief of the Federal Ministry for Science and Research and MMag. Victor Mihalic, director of EBC\*L International, presents. In her speech, Dr. Freismuth underlined that Federal Minister Dr. Töchterle represented, the great importance of "economic expertise" and "entrepreneurship" and the valuable contribution that the EBC\*L initiative provides for the dissemination of these key competences.

After two hours of exhausting competition, participants were entertained by an impressive juggling show by Fabian Winter and then tried themselves to keep three balls in the air simultaneously. Then Victor Mihalic was finally able to announce the winners and distribute the prizes. His special recognition went to the highly dedicated teachers.
